

BEHIND THE WHEEL TRAINING **SOUTH WESTERN REQUIREMENTS**

1. To be eligible for behind the wheel training students must complete 30 hours of classroom instruction (Driver/Safety Education). This course is a graduation requirement that is scheduled for every sophomore. All students must pass this course before they can drive with an instructor.

2. Behind the wheel training consists of 6 hours of instruction. The cost is \$250.00. The instructor will cover basic driving/parking skills, defensive driving techniques, and roadway courtesy. A student with their permit will drive 5 hours of instruction and be eligible to take the road test during the 6th hour. A student with their license must complete 6 hours of instruction. A certificate will be given to the student at the end of the 6th hour. This is the paperwork need to receive your insurance discount.

3. Students with their permit are top priority during the school year. Students with their license are eligible to drive during the summer. Any permit driver that does not get selected to drive during the school year should sign up for summer driving. Summer sign ups will be during the month of May. Students interested in summer driving will select a week and a time of the day that fits their schedule. Summer driving students will drive one hour a day for one week. Once a summer spot is selected it can only be changed if we have openings available. Students should know their summer schedule (vacation, sport camps, etc.) before they sign up for a spot.

4. Drivers selected during the school year will drive with the instructor after school hours (evenings and weekends). The schedule can be coordinated with the instructor to fit the student's schedule. Students must see Mr. Sprenkle in room 702 to sign up for driving during the school year.
